SUBJECT: Operational Deficiencies

NRO&USAF Declassification&Release Instructions on File

TO: Project Director

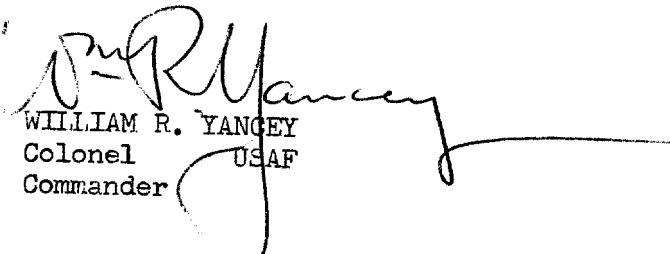

25X1A

Attached are three (3) reports prepared during a visit to [REDACTED] on 15-16 November 1955. For some time now we have been concerned over a few problem areas in the operational - maintenance field. These reports attempt to highlight soft spots in the overall program which will effect training (our responsibility) or the operational mission itself.

The reports are:

- a. Supervisory visit report.
- b. Memorandum highlighting problems which will effect the flying training program.
- c. Organizational charts.

It is recommended that necessary action be taken to correct the deficiencies listed and discussed in the attached reports.
